

## Technical Data

### IMPRESSA F9

|                                                     |                |
|-----------------------------------------------------|----------------|
| Intelligent Pre Brew Aroma System® (I.P.B.A.S.®)    | ■              |
| Two cups in one brewing process                     | ■              |
| CLARIS plus filter cartridge (I.P.W.S.® compatible) | ■              |
| Variable brewing unit (5 – 16 g)                    | ■              |
| Integrated 6-level spherical grinder                | ■              |
| High-performance pump, 15 bar                       | ■              |
| Heating System: 1 thermobloc                        | ■              |
| Option to use second pre-ground coffee              | ■              |
| Adjustable automatic switch-off                     | ■              |
| Adjustable automatic switch-on time                 | ■              |
| Automatic scale recognition                         | ■              |
| Integrated rinsing/cleaning/de-scaling programme    | ■              |
| Adjustable water hardness                           | ■              |
| Volume of grounds container                         | 16 port.       |
| Connector System®                                   | ■              |
| Professional Cappuccino Frother                     | ■              |
| 2-stage frothing jet                                | ■              |
| Replaceable hot water jet                           | ■              |
| Display dialogue system                             | multilingual   |
| Height-adjustable coffee spout                      | 70 mm - 111 mm |
| Automatic recognition of filter replacement         | ■              |
| Automatic recognition of maintenance programs       | ■              |
| Volume of water tank                                | 1,9 l          |
| Bean container with aroma preservation cover        | 200 gr.        |
| Adjustable coffee strength                          | individual     |
| Programmable coffee strength                        | ■              |
| Programmable hot-water quantity for coffee          | ■              |
| Programmable hot-water and steam portion            | ■              |
| Programmable brewing temperature                    | ■              |
| Illumination cup                                    | ■              |
| Monitors numbers of coffees drawn                   | ■              |
| Milk container Deluxe                               | ■              |
| Connectivity Kit                                    | ■              |
| Front panel                                         | aluminium      |
